Ipoli Collection

Ipoli is a decorative multifunctional collection centered on the movement of playful swiveling heads atop a slender base. The collection draws inspiration from the design tradition of utilitarian, streamlined task lamps and office lighting, while enfolding Lambert & Fils' unique twist, both poetic and sturdy. Whether employed as a task light, ambient accent, or focal point, each piece will delight any space.

Isle

An ode to quiet strength, Isle is a play both on illusion and perception allowing lightness to anchor and foundations to rise. Composed of a delicate glass tube resting on solid-stone and aluminum pedestals and suspended in mid-air like a surreal bridge, Isle is minimal, but never simplistic.

A collection in collaboration with designer Zoë Mowat.

Silo

The Silo collection inhabits many worlds at once, creating a striking metaphor for duality. Mysterious yet inviting, the true magic lies in how its rhythmic curves shape light and space around it. Made using custom aluminium extrusions, the modular upright-downlight creates a theatrical yet sleek composition.

Sainte

Featuring lightweight glass, slight dimensions and subdued colours, the Sainte's Classic series is destined for residential and office interiors—invoking magic and theatre into accessible designs. Hung solo or in multiples, Sainte's tones and textures unearth ambiance and imbue a sense of intimacy.

Created in collaboration with Canadian designer Rachel Bussin.

Parc Collection

Parc is a collection inspired by childhood imagination and the essentiality of homemade forms—created in collaboration with Swiss designer Adrien Rovero. Evoking the archetype of a flashlight, each lamp of the Parc Collection is a playful reminder of time spent in nature, when a simple tube and piece of string could be used to fashion any number of creations. These makeshift things, at once naive and functional, harness the unique beauty of peeling an object back to its essence.

Dorval Collection

Based on Cluzel / Pluchon's original pendant prototype Dorval 01, this collection is layered in history, a subtle interplay between contemporary and vintage industrial design. Drawing equal inspiration from airport runway lights and the classic Motobecane french moped, the result is a light both confrontational and intriguing—one which poses an immediate invitation to play.

Mile Collection

A collaboration between Lambert & Fils and Guillaume Sasseville, Mile offers a variation on the linear suspension, pared down to its simplest, asymmetrical expression, with two lines floating in surprising equilibrium. Direct and indirect light are separated by a 90° pivot, thus marking out space with light. A play on contrasts, Mile is part art installation and part utilitarian light. The use of linear LED technology and the cords clamped into the structure add to the weightless, almost levitating feel of the lamp.

Laurent Collection

The Laurent Collection distills the milk globe to its essential relationship between circle and sphere. A series of thin forms compliment the Laurent globes—forms that carve through space, moving between line, surface, and volume. These forms combine in endless patterns, making it possible for an installation of Laurent lamps to inhabit any space with subtlety and quiet strength.

Beaubien Collection

The Beaubien Collection's strong black lines bend in and out of space, moving effortlessly between simplicity and ornamentation. Round and cubic brass connectors complete the lamps' structures and add a rich material contrast to the powder coated rods. The collection's industrial and graphic aesthetic is imbued with a palette of influences, from traditional Chinese screens to the Memphis movement. Each influence strengthens the collection, creating nuance within its timeless character.

Dot Collection

The Dot Collection combines the directness of exposed, spherical bulbs with the rich materiality of brass. Focused, geometric compositions contain these two features, balancing line, surface, and luminous points. The result is a collection of lamps based in the reflectivity of brass—lamps that are both atmospheric and firm.

Lambert & Fils is a design studio specializing in handmade lighting, based in Montreal, Canada.

Founded in 2010 by Samuel Lambert, the studio creates original collections and collaborates with emerging designers around the world. Preserving the bond between design and making, all lighting is conceived, designed and hand-assembled at their atelier located in the heart of Montreal.

One of the country's most energized hubs for collaborative design,

Lambert & Fils contributes to art and design installations internationally and hosts a public exhibitions space in Montreal. Like the studio itself, these explorations trace where the unexpected meets the universally poetic—and where humility meets complex design.

Through its exploration of new design technologies, Lambert & Fils investigates the many shapes of light—meditating on voids, volumes and the importance of matière première—materials as a point of origin.

Material Library

Through our design and production practice, we meditate on the philosophy of *matière première*—where the quality of finishes, colors, and textures is just as crucial as the material itself. Quick, easy, and practical, our material library gathers all our catalog finishes and materials.

General terms & conditions

Handmade Lamps

Much care and craftsmanship go into making our lamps. Our goal is to craft the perfect handmade lamp for each and every customer. The images that are displayed on our website are accurate depictions of our models. However, since every item is hand-made, there may be very slight variations in finishing from one lamp to another.

Unfinished Brass

We work with unfinished brass because we believe brass looks best when it is allowed to build up a patina with age. This means that if your lamp contains brass components, its look will evolve over time. This isn't a defect, but intentional and by design. If you want to restore the lamp's original polished finish, please follow the maintenance instructions.

Maintenance

For commercial applications we offer the option to clear coat our brass therefore protecting the surface from external factors (ex: finger marks, cleaning products or just general tarnishing). Please inquire with your sales representative for pricing.

Order Cancellation and Modification

Customers may cancel/modify their order up to 48 hours after having submitted their order. Any requests to cancel/modify an order beyond that grace period will not be accepted. Please contact us at order@lambertetfils.com and we will modify the order or cancel it and issue a refund.

Returns

Customers may return goods within 10 days of receiving their order, in exchange for a store credit, product exchange, or refund, minus a 25% handling charge. The product must be unassembled and in its original packaging. The customer is responsible for the cost of shipping. Credits are valid for one year from the day of issue. Please contact us at order@lambertetfils.com to let us know that you will be returning the goods and we will provide further instructions.

Please contact us at order@lambertetfils.com to let us know that you will be returning the goods and we will provide further instructions.

Damages

Please examine the condition of the box your order came in before signing the delivery receipt. Should you receive a package in a damaged condition, please take photos documenting the damage before opening the box. After opening the box, should the lamp be damaged, take photos of the lamp and report the issue to order@lambertetfils.com within 7 days after receiving your package. If the product is confirmed defective, we will send you a replacement and reclaim the defective lamp (which must be unassembled and in its original packaging) at our cost.

Warranty

All goods purchased directly from Lambert & Fils or from one of our authorized resellers are guaranteed for up to two years after order delivery. This guarantee covers damage or defects incurred through normal use and excludes any damage resulting from accident, misuse, abuse, or negligence. Defect claims must be brought to our attention via email (order@lambertetfils.com) accompanied by photo documentation. Lambert & Fils reserves the right to subject the claim to an inspection. If the product is confirmed defective, we will send a replacement. The cost of shipping will be covered by Lambert & Fils.

Certification

All lamps meant for North American usage are UL certified. All lamps meant for Australia and New Zealand are SAA RSM certified. All lamps meant for Europe or other regions are CE certified.

Lightbulbs

We equip most of our lights with LED lightbulbs. Detailed information can be found on each product sheet.

Replacement Parts

Replacement parts can be purchased directly through the Lambert & Fils website under the Bulbs section. Replacement parts are non-discountable, shipping included.

Copyright

All rights, including images and copy, are owned by Lambert & Fils Luminares Inc. All photos in price guide by Arseni Khamzin.

Privacy

We are committed to protecting and respecting the privacy of our customers and website visitors. For that reason, we have taken, and will continue to take, measures that protect the personal information of our clients.

Terms and Conditions

Lambert & Fils reserves the right to change these terms and conditions at any time without prior notice. In the event that any changes are made, the revised terms and conditions shall be posted on our website immediately. Please check the latest information posted herein to inform yourself of any changes before engaging in any operations on our website.

Questions

Should you have any other questions, please contact us at order@lambertetfils.com or +1 514-394-0762.

General terms & conditions

Order Process

We put a lot of effort into building a strong relationship with our commercial partners and we know that something as basic as establishing clear order processes helps achieve that goal. Here you will find all of the information you need to place an order effectively and avoid delays.

1. Orders must be sent to order@lambertetfils.com
2. Complete product SKU, unit count and delivery address must be provided.
3. Please refer to the order guides below and/or product sheets available on the website to build your complete product SKU.
4. As much as possible please provide additional information such as the project name, the specifier name and the final destination when applicable.
5. Although you are not required to send us a purchase order, it is the best way to ensure that you provide all the information necessary for our team to process an order in our system. It is also the best way to track our order number to yours. When contacting us with regards to an order, please refer to either your purchase order number or our estimate/invoice number, to help trace the exact order.
6. A proforma invoice will be provided shortly after receiving your purchase order. We allow a maximum of 48 hours.
7. Full payment is required to enter an order into our production pipeline. When the payment is received a notification email is sent along with your paid invoice and estimated delivery date.
8. A tracking number is provided once an order has shipped. This email comes from the UPS Worldship platform.

9. For deliveries outside of Canada and the United-States, UPS will also provide payment instructions for taxes and/or duties. We strongly suggest paying these fees via UPS's web portal. Should a customer not be available to receive a package or fail to respond to UPS's payment claims, the return freight charges will be at the customer's expense.

10. For deliveries in the United-States, customs brokerage and duties are included in the price of shipping. However, sales taxes vary depending on your state and city/community. You are responsible for filing your taxes according to local tax laws. Note that an EIN number is required for all US orders above 2000\$ USD

Payment methods

CAD and USD: Payment can be made by credit card (Visa, MasterCard and Amex) or wire transfer. We do not accept checks.

EUR: Payment can be made by wire transfer only

Please refer to your sales representative for credit card remittance slips and wire transfer information. Each currency has its own documentation, so make sure you are looking at the correct documents.

Lead times

All lead times correspond to the published lead times on the Lambert & Fils price guide or product page on our website. The lead times are estimated, and products can occasionally become backordered or delayed. Custom projects require 16 weeks or more for completion. Lead times are calculated from the date of the receipt of payment.

Fast Ship

Fast ship items are produced and delivered within 4 weeks. The following items are available for fast track shipping.

Antipode – Brass only
Atomium – Brass only
Dot Suspension – All finishes
Dot Wall – All finishes
Dot 14 – Brass only
Dot Line Suspension – Brass only
Cliff Suspension – Brass only
Laurent 10 – Black
Waldorf Wall Large – Black/Brass only

Standard Ship

Standard production time for all other lights is 7 to 9 weeks, with the following exceptions:
Sainte: 12 weeks
All Atelier models:
12 to 16 weeks (North America) /
16 to 20 weeks (International)

If you've ordered lamps with various lead times, note they will be shipped together according to the longest lead time. If there are any delays at the border caused by customs disputes, it is wholly outside of Lambert & Fils' control. Please contact us at order@lambertetfils.com if you are having trouble tracking your shipment and we will assist you as best we can.

*Note that custom items may require longer lead times

**Lambert & Fils reserves the right to change these lead times at any time without prior notice. In the event that any changes are made, the revised lead times shall be posted on the website immediately. Please check the latest information here:

[Lead and Shipping Times](#)

Rush Order

If a project requires a shorter lead time, we may be able to accommodate. This depends on our workshop's workload at the time the inquiry is made. Please specify the required target date for shipment of the order and our customer service team will confirm whether the deadline can be met. A rush order fee may apply.

Pricing policy

- We offer free shipping (custom jobs and replacement parts excluded).
 - To simplify the ordering process we created 6 shipping zones covering every region of the world (Canada, USA, Euro 1, Euro 2, World 1 and World 2). In doubt, please refer to your sales representative to determine your shipping zone.
 - A specific currency is attributed to each shipping zone (CAD, USD or EUR). The currencies are not interchangeable. The attributed currency for the American price list is USD.
 - No minimum order is necessary to get free shipping.
 - List price excludes sales tax and duties (where applicable).
 - Final retail price should be calculated as list price + sales tax and duties (where applicable).
 - Final retail price is considered MAP (Minimum Advertised Price).
 - Trade and wholesale discounts are calculated off the list price. (ex: List Price – X% Discount = Purchasing Price). Please refer to your sales representative to determine if you're eligible for a discounted price.
- *List price corresponds to the pricing shown in this document.

Price Annex

The attributed currency for the American price list is USD\$.

List price excludes sales tax and duties (where applicable).

Recessed canopy cannot be sold separately, must be shipped with lamp.
