# TETRA V - FLUSH MOUNT

DUNN

DESCRIPTION

Inspired by 90s puzzle video games, the Tetra V combines playfulness with contemporary elegance as a flush mount lighting fixture with striking geometry. Drawing from its Greek origins, "tetra" meaning four, refers to the fixture's square geometry. Comprising five cube-shaped housings sandwiched between plates consisting of intersecting squares, it offers a visually intriguing composition of positive and negative space. Exposed bulbs peek out from the surface creating a captivating array of light.
